Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: A teleconference was held to discuss about a proposed amendment to claim 1 so as to be able to overcome the rejections made in the previous Office Actions. For such purpose, in light of the submitted specification, the Examiner suggested to focus on the details provided in Figures 4 and 7 and the corresponding description provided on page 7 of the specification. Specifically, the amendment to claim 1 should include a proper description of the high-tension transformer with respect to the pulse generator and the lamp holder, and the use of toroidal core transformers for both transformers directly connected to the lamp holder. An agreement was reached. The Examiner concurred with Ms. Powers' intention of filing an RCE in response to the final action mailed 01/19/2007 .
